Class Three Newsletter

07/10/2016

This Week

As always it has been an eventful week for Class Three. It has been a particularly eventful week for a group of children that were chosen to represent the school at a Mini Athletics event. The event took place at Broughton High School on Thursday afternoon and the children competed against a large number of schools from across the Preston area. The range of events put the children's co-ordination, communication and team work skills to the test, and I would like to congratulate Emily Hoyle, Natasha Ramsay, Libby Bennett, Theo Collinson, Jake Taylor and Max Fannon for their outstanding individual effort and collective performance.

In Maths this week the children have explored decimal numbers with one and two decimal places. They have read and written decimal numbers, identified the value of each digit in a decimal number, counted on and back in decimal numbers, rounded decimal numbers, solved sequences that included decimal numbers, and solved problems that included decimal numbers. In English this week the children have explored the structure of sentences that include clauses and created their own complex sentences using commas when adding a subordinate clause. In R.E. the children have shared their knowledge and understanding of Harvest.

Next week in Maths the class will be exploring measurement. This topic will include length, mass, volume/capacity, temperature and perimeter. In English the class will explore the features, presentation, content and language of a variety of letters.

Talk Time

Please talk to your child about the British Values of Individual Liberty and Mutual Respect, and why it is important to consider the value of Mutual Respect even when we are making our own choices.

Important Dates...

Harvest Service @ St. Christopher's Church, this
Sunday 9th October 10:00am.

Don't Forget...

Harvest Rucksack Appeal - send in your rucksacks,
stationery and white socks please
