

Class Three Newsletter – 16.6.17

This Week...

Welcome back after the half term break. I cannot believe that we are now in the final half term of the year and the children are starting to prepare for the transition to Year 4 and 5! We are being blessed with some more good weather which I hope will continue so that we can maximise our outdoor learning. This week the children did PE outside with Mrs Morris and enjoyed some traditional team games. We are continuing with the non-chronological reports about the Romans and, this week, have been focusing on what life was like for Roman children. We also found out about Boudicca which fitted nicely with our new theme of Courage. Cayden also showed courage and gave us a presentation on Spartacus which he had prepared at home - well done Cayden, we were all fascinated with your findings. In our Maths lessons we have been applying our knowledge of decimals to working with money and some children carried out an investigation to find out what could be bought for £5. We then looked at strategies for calculating the 12x table and made arrays using Base 10 to help visualise this. We all need to be regularly working on our tables to further help us with our maths.

Important Dates...

19th June - new date for our Paralympic Sponsored Event. Please send in Sponsor money on Monday, thank you.

6th July - Bog Eyed Jog

21st July @ 2pm- School breaks up for Summer

Don't Forget

Please note that **fidget spinners**, **Lego cards**, **football cards** and other **toys** are not allowed in school. They are at risk of being lost or damaged and this causes unnecessary upset.

Swimming kits are needed each Friday.

Water bottles are needed in class every day.

There are several PE kits which have not been returned after the holiday. Please ensure they are in school.

Special News!

Christian Value Certificate - Courage
Theo Collinson

Curriculum Certificate -
Cayden Essien

Writer of the Week -
Jorja Tucker

Next Week...

We will be writing our non-chronological reports after collecting all the information we need this week. We shall be improving our sentences by using conjunctions such as whilst, therefore and although. In our maths we shall be working on time and linking it to our previous learning of the 12x table. We shall be looking at the 24 hour clock, both analogue and digital. At the end of the week we shall move onto 3D shape. Our RE focus is 'Rules For Living' and we will explore the 10 Commandments.
