

## Reception Newsletter

Friday 31<sup>st</sup> March 2017

### This week in Reception.

Our focus for learning this week has been on revising our phonics and basic number skills. We have been carrying out assessments on your child and this will then be a focus for our learning next term. The children have been sequencing the story of Easter and many of the children have been able to recall key parts of the story. In our Science lessons we have been looking at different life cycles.

Another big part of our week has been practising for the Easter production. The children will be singing two songs during our special worship and they are becoming really clear, confident and lovely singers. The Easter service will take place on Wednesday at 9:15am. Parents are welcome to come and see their little ones perform. Refreshments will be served after the service.

### Next week in Reception

Next week is a short but very busy week. On Monday we are going to split the classes and all the children will be going around school to complete various Easter activities. They will be enjoying cooking, making cards and performing Easter songs. It will be a great action packed day. On Wednesday we are holding a non-uniform day to raise money for the, Rainbow Charity. (see Mrs Seagrave's newsletter from last week for more details). If you could send in a donation with your child (£1 minimum) that would be greatly appreciated. Thank you.

### Notices

Please could all parents ensure that their child has taken home their PE kits at the end of term. Also could everyone check that their child has the correct uniform when returning to school after the holidays.

Some children are missing sweatshirts and items of their PE kit.

### Homework

I have put your child's homework into their book bag this week. Please could you try and complete this with your child as this is always related to the learning that we have done during the week and will enhance their understanding of the subject. If you are finding this difficult or would like any help then please do not hesitate to contact me at school. Another quick reminder Children are read with at least twice per week in class and we would recommend that children are read with every night at home.
