Class Three Newsletter

21/10/2016

This Week

Class Three children have spent the week using their measurement skills, writing letters and investigating light. Maths started with scales and the children discovered the importance of identifying the amount between each interval on a scale. The class then went on to solving scale problems and explored negative numbers on a thermometer scale. Following that, the class put their measure skills to the test on Mathletics, and finished off the week finding the perimeter of shapes using the cm squares within the shapes. Next week in Maths the class will begin the week by putting all their measuring skills to the test during a Classroom Olympics event. The class will then spend the rest of the week exploring Geometry and the properties of shapes.

In English this week the children have identified and analysed the language used within persuasive writing and used the key language features to write their own persuasive letters. After evaluation, the children then edited their letters using Microsoft Word and made them even better. Next week the class will identify and use the perfect form of verbs using *have* and *has* to indicate a completed action. They will also identify and use the determiner *a* or *an* according to whether the next word begins with a consonant or a vowel. Finally, alongside this learning, the class will identify and apply the skills required for reading comprehension.

In Science this week the class investigated whether or not we can see in the dark. Before their investigation, the children made sure that they planned it carefully and followed some important steps in order to make sure that it was a fair investigation.

Talk Time

Please talk to your child about online bullying and explain that they must always let an adult know if someone or something has upset them online.

Important Dates...

School closes for half term on Friday, 28th
October @ 3:15pm.

Don't Forget...

Harvest Rucksack Appeal - send in your rucksacks,
stationery and white socks.

Special News!

This week's Outstanding Children are:

Harrison Price	Keinan Markar
Natasha Ramsay	Jack Fannon
Connor Seddon	Max Parkinson
Shane Staker	Kaitlyn Marsden
Rubie Derbyshire	

This week's Stars of the Week are:

Rubie Derbyshire and Jack Fannon

This week's Star Writers are:

Connor Seddon and Libby Pullen
