

# Class Three Newsletter

## 23/09/2016

### This Week

Yet another busy week in Class Three this week. The children have finished creating their Harvest/Coordinates display in the corridor and are already testing each other on their coordinate skills. In Science the children have carried out an investigation into shadows created by the sun. Harvest celebrations have been further explored in R.E. The children's Football and Hockey skills have been put through their paces in P.E. and Computing skills have been combined with some English lessons.

Before the children combined their Computing and English skills, the week began with the children's English skills focusing on speech marks and how to include them in their writing. Once these skills were in place the children were given the opportunity to create and manipulate an image of themselves having a conversation with their partner. The children thoroughly enjoyed the task and did a brilliant job editing their images. In English next week the class will use commas for lists, and they will identify, select and effectively use prepositions and adverbs.

In Maths the children began the week comparing and ordering numbers up to 1000! They then moved on to counting on and back in 1s, 10s and 100s, and they ended the week rounding numbers to the nearest multiple of 10 and 100. In Maths next week the class will find the effect of multiplying a one or two digit number by 10 and 100, and identify the value of the digits in the answer. The class will also extend number sequences involving counting on or back in different ways.

### Talk Time

Please talk to your child about what Harvest is and why we celebrate it at this time of year.

### Important Dates...

Reading & Writing Parents' Session - Wednesday  
28<sup>th</sup> September at 6pm.  
Harvest Service at St Christopher's -  
Sunday 9<sup>th</sup> October at 10am

### Don't Forget...

Next week's Christian Value is Hope.

### Special News!
