

Class Three Newsletter – 24.3.17

This Week...

What an action packed week we have had in Class 3! On Monday we shared our learning with the youngest children in school and read them our adventure stories. We were practising using our storytelling voices and enjoyed having an appreciative audience! Tuesday saw us embarking on our much anticipated visit to Borwick Hall. I am not sure who was the most excited; the children or myself! We had a brilliant day full of orienteering, climbing, caving and pond traversing. The children all showed fantastic behaviour, teamwork and resilience during the day. I was very proud of them and staff at Borwick also commented on their conduct throughout the trip. Well done! We did some great recounts of the visit on Wednesday, using our new focus of fronted adverbials to make our writing more interesting. Following on from our 'hatching experience', we did an experiment in science to see if we could stop an egg from breaking when dropped from the height of one metre. The children looked at variables and made predictions before we had a 'smashing' time carrying out the investigation. Homework this week is closely linked to this as the children have been tasked with constructing a device which will protect the egg!

Important Dates...

24th March - Tombola Prizes for bingo event.
30th March - Parents' Evening - sheets are now available in the entrance hall. Please sign up.
31st March - Springo Bingo - 6pm - 8pm
5th April - Easter Service - all welcome to join us in our worship.

Don't Forget

Swimming kits are needed each Friday.

Last week there were many children who did not return homework. Please help and encourage your child to complete this work each week and return to school on a Monday or Tuesday.

Harley McGowan

Next Week...

We shall be looking at poetry as our English focus. We shall be learning a poem off by heart for performance before creating our own poems linked to Easter.

In our maths we shall continue to look at shape and position before starting our new unit on time. Please practise telling the time with your child at every available opportunity as this is often an area of maths which children find difficult.
