Certificate Winners

Curriculum Awards Year 2

Louie – Excellent work making number sentences using the part whole model.

Brodie – For creating a beautiful fruit and veg print in RE.

Theo Ha – For always being thoughtful and putting 100% into his work.

Rosie – For a fantastic attitude to her work this week and showing resilience.

Christian Value Awards/Diamond 9

Freya – Given to her by Tommy – She showed compassion by rushing to help him when he was upset

Sophia and Ellie Mae gave one to each other for Friendship. They have been making pictures for each other at home.

Oliver – For being thoughtful and always being ready to engage with his learning.

Iyla – For always shining brightly and being ready to learn. She is a good friend and courageous.

Star Writer

Rogan – For his fantastic independent writing about harvest.

Polina – For her wonderful questions, which included a question mark.

Theo Ho – For working hard to improve his letter and number formation.

Kai – For improved stamina and independence with his written work.

Class News

In Year 1...

We have been fact finding about using mice. We are practising listening closely to information we hear or read and taking the facts from the information given.

The children will be writing their own mice fact sheets next week.

In Maths we have been looking at number bonds and how we can systematically work out the number bond. The children are becoming really confident in their knowledge of how numbers are made up and how they can be split.

Thank you for your contributions of cardboard egg cartons and 500ml bottles.

We will be using them on our Harvest Day to make our take home, recycled, Harvest Crafts.

Thank you so much for your support and cooperation.
Mrs Lucarelli

Class Open Door

Please, feel free to visit classrooms and ask any questions you may have.

Year 1

Monday 3:20pm – 3:40pm

Year 2

Monday 3:20pm – 3:40pm

Class News

In Year 2 ...

We have been writing information leaflets about wolves this week and researching our own animals to create an information poster or text. Did you know a narwhal has a tusk that is three metres long and a walrus can have tusks up to a metre in length? We also discovered that an arctic fox can have as many as nineteen babies in a litter!

In our Maths work we have been focussing on addition and using our bonds for ten to add to the next ten.

In our Science lesson, last week, we investigated the human head and labelled the parts. This week we have been investigating our senses and gathering data about each of the five senses.

In RE we have been learning about a young girl called Mary Jones, who worked and saved her money for six years before walking twenty-six miles to buy a bible in her first language, Welsh. We were inspired by her determination and courage!

Awe and Wonder in Class 2

This week it is our turn to add to the Awe and Wonder board in school. I have been fascinated by the insects and the spiders in my garden this week building their elaborate but fragile webs.

Here are some of the photos I took.

What inspires you? See what you can spot, and please email or send in your amazing photos by Monday morning.

Have fun looking at nature and have a lovely weekend.

Thank you for your support and cooperation,

Mrs Ramsay and Mrs Edwards
