

Year 1 Easter Term Round Up

This term seems to have passed in no time at all, and the children have worked incredibly hard throughout. We are especially pleased with the progress they have made in their reading and writing.

A real highlight was creating our own Bog Babies. The children loved designing them and writing information sheets about how to look after them. We also enjoyed our instruction writing unit, beginning with How to Wash a Woolly Mammoth before moving on to creatures of their own choice — some very imaginative ideas appeared.

Our Lent Appeal Day was a meaningful part of the term. Thank you for your generous donations; the children showed great thoughtfulness. We are excited about our lovely Easter Praise service that we have been preparing for, we hope you can join us (maximum of

In maths, we have been developing our understanding of place value to 50 and exploring different types of measure, including weight, length, height and capacity. We used our measuring skills to make our Easter Brownies.

In RE, we have been learning about Easter. In history, we looked at why the Victorians visited the park and created a timeline of Avenham Park. Our art lessons were inspired by Andy Goldsworthy, and the children enjoyed creating their own land art using natural materials.

We made the most of the brief spell of sunshine and took our learning outdoors whenever we could.

It has been a busy and productive term, and the children should feel proud of everything they have achieved.

Wishing you all a restful Easter break.

Mrs Lucarelli, Mrs Bamber and Miss Wilson
