WELL DONE!

Notices

If you did not make it to the Meet the Teacher session, the notes from this can be found on the school website which is a rich source of curriculum information and more.

Homework will be sent out on a Friday and is due in on a Thursday to be marked together.

Class News

Welcome back to what has already been a busy start to the term. All the children have settled well into their new routines and are getting stuck into the Year 6 diet of learning. In English we have been revising lots of grammar techniques as we work towards writing our own version of a chapter from 'The Nowhere Emporium' by Ross Mackenzie. We have also begun reading 'Journey to Jo'berg' as our Guided Reading text – a story about two black children in South Africa walking 300km to find their mother during Apartheid rule. This has, as you can imagine, led to some deep discussions. Maths has seen us explore the place value of numbers up to 10 million while we are now learning the difference between factors, primes and multiples!

The Theory of Evolution and Inheritance is our Science topic this term. So far, we have investigated the effectiveness of different types of beaks and learnt how the story of the peppered moth illustrates natural selection in action. By the time you read this, we will have also used fossil evidence to make predictions about life years ago.

So, the Year 6 children have made a great start to their final year's journey at Lea Endowed. We have been thinking about our life journeys in RE, and how we can find strength in the knowledge that God is always there for us through the hills and valleys we may encounter on the way.

Have a lovely weekend.

Mr Pratley

Class Open Door

Please feel free to visit me in Year 6 and ask any questions you may have.
Mr Pratley

Monday 3:20pm – 3:40pm

Alternatively, you can email me using the contact details at the top of the page.
