

Lea Endowed CE Primary Class 1

Continuation of Learning Plan if school is closed for a prolonged period

For a wealth of additional activities provided by Lancashire County Council please see the Support for Home Learning document in our Class Area.

Activities provided below are specific to our learning in class:

- Pick an animal of your choice and find out where it lives. Make a place for this animal to live using junk model materials.
- Research an animal of your choice and make a small book which contains information about the animal e.g. what it likes to eat, where it lives and how it moves.
- Think of your favourite food and find a recipe to make it. Can you then try and make your food with an adult and talk about what you like about it?
- Draw some squares, circles, rectangles and triangles and then try and draw line to cut them in half. If you wanted you could try cutting pieces of fruit, cakes or sandwiches into half.
- Practice reading and writing all your tricky words. Could you pick some of your tricky words and put them into a sentence?
- Look at the weather on the News. Can you make a weather chart and fill it in for a week? Count how many days it rained in the week.
- Pick an animal of your choice and produce a piece of art that has this animal in it. You could either paint or draw this.
- Can you research the life cycle of either a butterfly, a frog or a chick? Can you draw the different stages of life that they go through and label them?

- Can you go on a shape hunt in your house? What different shapes can you find. Draw them and label them.
- Can you write a simple diary for your time at home? Can you write one sentence for each day which tells us what you have done that day. Ask a grown up to help remind you of your finger spaces and sounds.

Other core learning to complete:

- Daily Reading of books and tricky words
- Online Activities:
