

Class 4 Spring 1 Homework Projects

Cultural Capital

Our theme this term is around the country of Italy. Over the course of this half term, please send in any photos of the children experiencing Italian culture.

This may be eating Italian food, cooking Italian food at home, watching Italian sport, listening to Italian music; anything Italian. These photos can be either printed off and brought in or emailed to:

d.bateman@leacofe.lancs.sch.uk .

THE CHILDREN ALSO NEED TO COMPLETE A SCIENCE PROJECT OR A GEOGRAPHY PROJECT by Monday 10th Feb.

Science

Our focus is Electricity. One of the most significant electrical inventions has been the lightbulb.

The children need to research this invention and create either a Powerpoint Presentation or a poster about the inventor and invention.

However, they need to decide if the inventor was Thomas Edison or Joseph Swan.

Geography

The children need to create an Italian landmark. This could be the Colosseum, the Leaning Tower of Pisa, the Trevi Fountain, the Sistine Chapel, Mount Vesuvius, the Dolomites or any other major Italian landmark.

This may be a model, a Powerpoint Presentation, a poster, a painting/drawing, a collage or a fact-file.
