

### Home Learning for Class 3 – Week beginning 27.04.20

Hello Class 3, I hope you enjoyed the learning I gave you last week. Here are some new ideas to help you with your learning while you are staying at home. Don't worry if you can't complete all of the tasks but try to have a go, and as always, let your light shine! Remember that I am always willing to offer advice or help and I would love to see what you are up to. If you wish to contact me, my email address is [r.bolton@leacofe.lancs.sch.uk](mailto:r.bolton@leacofe.lancs.sch.uk)

#### Maths

Warm up by counting in 3s and 6s this week. Can you say the 6x tables backwards?

Please access via the link below and select **Summer Week 2**.

There are videos which help guide you through the lesson as well as daily learning with different challenges.

Year 3 - <https://whiterosemaths.com/homelearning/year-3/>

You are looking at *Fractions on a Number line* this week

Year 4 - <https://whiterosemaths.com/homelearning/year-4/>

You are looking at the next step for *Decimals*

Again, there are some interactive games to help consolidate knowledge on <https://www.topmarks.co.uk/maths-games/7-11-years/fractions-and-decimals>

Perhaps have a go at **baking** this week. Using scales can be a tricky concept, so carefully weigh out the ingredients and remember to time your cooking carefully too!

Practise your times tables using Times Tables Rock Star or any other method which helps you. Remember, Hit the Coconut is also on Topmarks website.

#### English

For our Home Learning in English, I am recommending that you access the LPDS Home Learning **Read and Respond Units** found on the additional attachment to this plan. Remember, there is one for Year 3 and one for Year 4.

This week, you will be looking at Eggs in Year 3 and, my favourite, Chocolate in Year 4!!

I have also created a Class login for the Oxford Owl website which will allow you to access a whole range of school type reading books to extend the reading your child is doing at home. If you go to the website <https://www.oxfordowl.co.uk/>

Click **Oxford Owl for Home**, then **browse eBooks**; you will be taken to available levelled books, click on the appropriate level for your child and you will be taken to a page which requires a class login. For Class 3 this is:

- My Class Name is **lea3**
- My Class Password is **lighthouse**

Can you try and learn 5 spellings this week and, as a challenge, include them in some silly sentences?

- Length, library, minute, naughty, notice

After reading a chapter of a book, can you write 5 quiz questions related to the chapter? Include answers and then use the quiz with a member of your family! Don't forget to use a question mark at the end of each question!

# HOME LEARNING

### Home Learning for Class 3 – Week beginning 27.04.20

Hello Class 3, I hope you enjoyed the learning I gave you last week. Here are some new ideas to help you with your learning while you are staying at home. Don't worry if you can't complete all of the tasks but try to have a go, and as always, let your light shine! Remember that I am always willing to offer advice or help and I would love to see what you are up to. If you wish to contact me, my email address is [r.bolton@leacofe.lancs.sch.uk](mailto:r.bolton@leacofe.lancs.sch.uk)

#### Other

As we didn't get chance to finish our Romans **History** topic, perhaps you could do a little more research and find out more about how the Romans lived.  
<https://www.bbc.co.uk/bitesize/topics/ztqtf34j/articles/ztqg4wx> is a great way to find out about Roman houses and the families who lived in them.

Draw and label a Roman house.

Have you drawn a house for a rich Roman or a poor Roman? How do the two houses differ?

Our topic in **Science** this half term is *How Does Your Garden Grow?*

Watch <https://www.bbc.co.uk/bitesize/topics/zy66fg8/articles/zcjp39>

Can you draw and label a plant, including **roots, stem, leaf, flower** and explain the functions of each different part?

Perhaps you have been doing some gardening at home? Which creatures have visited the plants in your garden? Why?

If you have any seeds or bulbs at home, you could plant them and see what happens over the next few weeks.

**Writing/ Art** - How about you write a diary this week, describing all the things you get up to. Write down your feelings, what you see if you go out for a walk, any games that you play or movies that you watch. Or, if you prefer, you could draw a picture of 'lockdown', perhaps draw all the people who are still working, cartoon versions of you and your family and the activities you are doing or even an abstract picture showing shapes and colours which you associate with this time.

**PE** - Don't forget to keep up your exercise. The weather is so beautiful so get outside and move in whichever way you like! You could dance, cycle, go on the trampoline, do laps around the garden Captain Tom Moore style or perhaps do some hula hooping or skipping. Set an obstacle course up and challenge yourself to complete it quicker each time you do it!!

#### RE

Does this picture remind you about something Jesus said, a Bible story or your belief in God? Write down all the words you associate with a lion and tell me how you could compare God to a lion.

Read The Parable of the Sower

If you have a Bible at home, you will find it in the book of Matthew 13:1-9, 18-23 You can also find it in different formats on YouTube.

In the Parable of the Sower, Jesus tells the story of seeds that fell on four different types of ground.

How about you think of the importance of planting seeds in good soil by making these observable composting bottles

<https://www.changeworks.org.uk/resources/how-to-make-compost-in-a-plastic-bottle>
