Autumn Term – 5/10/18

**Thank you to everyone who came to the poetry performance on Thursday morning. It is always lovely to see our parents in school 😊**

## This Week...

### Maths

This week we have been working on Mental and Written Subtraction including large numbers and decimals. We have been deciding on the most appropriate method to solve calculations.

### English

We have been focusing on poems in our English lessons this week. We have written descriptive poetry about animals using various poetic techniques and we have rehearsed and performed the poem 'Please Mrs Butler' by Allan Ahlberg.

### Across the Curriculum:

In this week's R.E. lesson we thought about 'A Day in the life of a Super Christian'. In Geography we have been studying the Earth's longitude and latitude and in Science we have been learning about 'Survival of the Fittest'. Our Art lesson was linked to poetry and creating drawing that represents the poems read.

## Next Week...

### Maths

We will be moving on to Mental and Written Division using large numbers and decimals.

### English

We will be thinking about zoos and writing a balanced argument that outlines the pros and cons of animals living in them.
