

Star Maths!

Cut out the stars and complete the following challenges:

- Order the stars smallest to largest – use them to count up to 20 and back from 20.
- Sort them into odd and even numbers.
- Look at the even stars and use them to count up and back in twos.
- Match them to make number bonds to 20.
- Select one star and say the number one more or one less than the number chosen.
- Select one star. What is three more?
- Find the stars that are in the five times tables. What do you notice about them?
