

## Resource 1

Look at the resource below, which shares some examples of times when some children have felt included and times when they have not.

I broke my arm and had it put in a cast. I was worried about coming back to school, but my friends all played games I could join in with on the playground. I was even given a set of special challenges in my PE lessons so I could still take part!

Thomas

My mum, dad, older brother and older sister all took part in an obstacle fun run. I had to watch with my gran as they said I was too young.

Sana

I go out at playtime and never have anyone to play with.

Eben

If we have been good, my teacher lets us play with the parachute. We all take a section and play games.

Celina

Who do you think feels included and who do you think does not?
