**Will robots make
the world a better
place?**

Let's look at this week's story

A robot named Ai-Da has become the first robot to speak in the House of Lords in Westminster, London. The robot spoke to the House about Artificial Intelligence (AI) and the future of arts, fashion, and music. Ai-Da's creators hope that she will give the House of Lords and others a fresh perspective on how technology can be used to create art in the future.

Built in Cornwall by Engineered Arts, Ai-Da was then programmed by an international team and named after English mathematician, Ada Lovelace.
